SIR GEORGE WILLIAMS FACULTY CLUB

At Concordia

The Sir George Williams Faculty Club is a private non-profit cooperative organization which exists to facilitate social exchange among all members of the University. Members have the use of a Dining Room, Reading Room, Lounge and Bar during the academic year. Other services available include access to space and catering for special events. Club services are intended for the use of members and their guests, but a member may sponsor a non-member from outside.

Membership is available upon application to any person who works full or part-time in the University. There is no entrance fee and the annual dues for 1983-84 are $ 35.00. Membership allows full use of the facilities described herein, the right to vote and the right to run for office. An application commits the member to observing the rules of the Club, and it is hoped the applicants intend to play an active part in the organization.
